From our call to action :

We demand trans liberation. In doing so, we aim to build a world that welcomes diversity and defends the right to bodily autonomy. We also want to create a society that supports people in exploring and affirming their gender. We believe that freeing ourselves from the imposition of strict gender binary is beneficial for the whole population, cis and trans alike. We will continue to fight for a world that does not sow discomfort, unease, and hatred, but nurtures joy and euphoria.

We call for a movement against the CAQ and its committee of so-called “wisemen.”
